Faisalabad, Punjab, Pakistan

PROFILE

Computer Science student and AI Engineer Intern building full-stack products where AI is core to the product, not bolted on — retrieval-augmented generation systems, semantic matching pipelines, and LLM-integrated applications, backed by production-grade full-stack engineering.

EXPERIENCE

AI Engineer Intern · AIKSOL Technologies

Jun 2026 — Present

On-site internship

- Build applied AI/ML product features end-to-end, from data pipeline through deployed interface.
- Work on NLP-based candidate/job matching pipelines combining semantic similarity with exact skill scoring.
- Collaborate with a technical supervisor on architecture decisions and code review for shipped features.

PROJECTS

YomoLoco (RepoMind) · Independent Project

2026

- Built a retrieval-augmented generation engine that ingests, embeds, and indexes GitHub repositories for semantic search.
- Implemented SHA-256 differential sync so re-indexing only touches changed content, avoiding full reprocessing.
- Benchmarked retrieval quality at Grade A+ accuracy across 15 evaluation queries.

Tech: Python, FastAPI, FastEmbed, Qdrant, SQLModel

Resumify · Independent Project

2026

- Built an AI-powered recruitment platform that parses resumes and job descriptions and scores relevance using semantic similarity plus exact skill matching.
- Added ATS compatibility scoring, skill-gap analysis, and automated candidate ranking for recruiters.

Tech: React, TypeScript, Node.js, Express, PostgreSQL, Python, FastAPI, NLP

CourseForge · Independent Project

2026

- Built a two-role (student/instructor) AI-assisted learning platform with role-based routing and middleware.
- Integrated the Gemini API for AI-generated course outlines, a lesson-scoped AI tutor, and automated quiz generation and grading.

Tech: Next.js 15, React 19, Prisma, PostgreSQL (Supabase), Clerk, Gemini API

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL

Frameworks: React, Next.js, Node.js, Express, FastAPI

AI / ML: RAG, NLP, LLM Integration, Vector Embeddings, Semantic Search

Data & Infra: PostgreSQL, Prisma, Qdrant, Supabase, Git, Vercel

EDUCATION

BS, Computer Science · FAST NUCES, Chiniot-Faisalabad Campus

2023 — 2027 (Expected)

CERTIFICATIONS

- LangChain — Certificate of Completion
- React (Basic) — HackerRank
- SQL (Basic) — HackerRank
- Python for Beginners — Udemy
